

AL MAGNIFICO RETTORE
DELL'UNIVERSITA' DEGLI STUDI DI MILANO

COD. ID: 6709

Il sottoscritto chiede di essere ammesso a partecipare alla selezione pubblica, per titoli ed esami, per il conferimento di un assegno di ricerca presso il Dipartimento di **Scienze Sociali e Politiche**
Responsabile scientifico: **Prof.ssa Jeannet Anne-Marie**.

Simone Tonelli

CURRICULUM VITAE

INFORMAZIONI PERSONALI

Cognome	Tonelli
Nome	Simone

OCCUPAZIONE ATTUALE

Incarico	Struttura
Postdoctoral Research Fellow (Da Gennaio 2023)	School of Social and Political Science, University of Edinburgh

ISTRUZIONE E FORMAZIONE

Titolo	Corso di studi	Università	anno conseguimento titolo
Laurea Magistrale o equivalente	LM in Management of Human Resources and Labour Studies (curriculum: Comparative Social Policy and Labour Studies) Final grade: 110/110 with honours	Università degli studi di Milano	2018
Laurea Magistrale o equivalente	MA in Social Policy Final grade: 1.15 (with honours)	Università di Brema (Germania)	2018
Dottorato Di Ricerca	PhD in Political Science	Bremen International Graduate School of Social Science (Germania)	2022

LINGUE STRANIERE CONOSCIUTE

lingue	livello di conoscenza
English	Fluent (C2)
Italian	Native

PREMI, RICONOSCIMENTI E BORSE DI STUDIO

anno	Descrizione premio
24/04/2022	Honourable mention of the BIGSSS best paper award 2022 for the paper " <i>What Curbs Social Investment? The Effect of Foreign Electoral Outcomes on Childcare Expenditure Levels</i> "
06/01/2021	Collaborative Research Centre 1342: Integrative funding to study the impact of the pandemic of Covid-19 on social and economic policy preferences in Italy (€4000)
10/11/2020	Hans-Riegel Foundation: Grant to study the impact of the pandemic of Covid-19 on social and economic policy preferences in Germany and Brazil (€5000).

ATTIVITÀ DI FORMAZIONE O DI RICERCA

Previous Research Positions	
20/07/2023 - 31/03/2024	External Consultant, European Trade Union Institute (Belgium)
01/05/2018 - 31/12/2022	Doctoral Research Fellow, University of Bremen (Germany)
01/05/2017 - 01/09/2017	Research assistant, European Trade Union Institute (Belgium)

Specialised Training Activities	
24/07/2023 - 04/08/2023	Causal Inference and Experiments in the Social Sciences - Essex Summer School of Social Science and Data Analysis, University of Essex (UK)
14/02/2020 - 21/02/2020	Panel Data Analysis; Structural Equation Modelling - ECPR Winter School, University of Bamberg (Germany)
24/06/2019 - 28/06/2019	Supervised and Unsupervised Learning Algorithms - ReSPoS Summer School, University of Milan (Italy)
05/08/2018 - 18/08/2018	Spatial Econometrics - Essex Summer School of Social Science and Data Analysis, University of Essex (UK)

ATTIVITÀ PROGETTUALE

Anno	Progetto
Since 2023	<p>The Political Economy of Knowledge-Based Growth (with Diessner S., Durazzi, N., Filetti, F., Hope, D., and Kleider, H.)</p> <p>The project aims to advance the knowledge economy literature by (i) providing a new empirical measurement of the knowledge economy based on a multidimensional conceptualisation of it; (ii) identifying different types of knowledge economies and their political-institutional determinants; and (iii) examining the impact of the knowledge economy on individual policy and political preferences through observational and experimental surveys of public opinion.</p>
Since 2023	<p>Skill for the Knowledge Economy: The Changing Role of Collective Skill Formation (with Durazzi, N.)</p> <p>Dual apprenticeship systems have provided economically and socially sustainable outcomes in industrial societies by ensuring that skills supply and demand matched, and good employment opportunities for academically less promising students. Whether dual apprenticeship systems have adapted to the needs of knowledge economies is an open question which this research project explores by analysing the effect of such systems, at micro, macro and multi levels, on various socioeconomic indicators and students' school-to-work transitions, taking into consideration the moderating role of the knowledge economy.</p>
Since 2023	<p>Dual Vocational Education and Training, Youth Unemployment and Right-Wing Voting in the Knowledge Economy (with Durazzi, N. and Rathgeb, P.)</p> <p>Research in political science and sociology documents the tendency of the working class to vote for far-right political parties in post-industrial societies. Evidence on the effect of technological change on voting behaviour suggests that this political realignment can be explained by the fact that many routine jobs can now be replaced by technology, low-skilled, low-cost immigration and offshoring, devaluing the working class as a political category. Therefore, working class members increasingly tend to identify with other categories that give them dignity, such as nationhood. This project asks whether dual apprenticeship systems, by offering better employment outcomes to working class pupils, can mitigate status anxiety and reduce the likelihood of young working-class Europeans voting for radical right-wing parties. The test is conducted with a multilevel model using data from the European Social Survey.</p>
2021-2023	<p>Cross-class solidarity in times of crisis: the economic impact of the COVID-19 pandemic on support for redistribution (with Deeg, F., and Harris, E.)</p> <p>This project analyses the impact of the economic crisis associated with the COVID-19 pandemic on support for redistributive policies in Germany. We develop an alternative to the classical self-interest hypothesis, drawing on the growing research on the role of altruistic considerations. We hypothesise that higher-income individuals economically affected by the pandemic are more supportive than their unaffected counterparts of welfare expansion, even if they do not benefit from it, and are less likely to consider welfare recipients "undeserving." We propose a mechanism whereby firsthand crisis experiences change beliefs about the role of fate in one's economic situation in the presence of an exogenous shock. We combine observational and experimental data from an original survey conducted in Germany in April 2021 to test our expectations.</p>

2018-2022	The Politics of Family Policy in a Global Perspective (PhD Thesis) The project goal is to advance the comparative political economy literature on the factors influencing family policy development from a global perspective by (i) collecting new and comprehensive data on family policy reform for all world countries with a population larger than 500 thousand inhabitants, since family policy were first introduced; (ii) examining the role of domestic factors driving family policy development; (iii) examining international factors driving family policy development.
