2000 - 2005

Bachelor degree in Computer Science

Dipartimento di Scienze dell'Informazione, Università degli Studi di Milano

2005 - 2007

Master's degree in Computer Science. Thesis title: Semantiche alla Kripke per logiche polivalenti

Dipartimento di Scienze dell'Informazione, Università degli Studi di Milano

November 2007 - December 2010

Phd in "Matematica e Statistica per le Scienze Computazionali". Thesis title: On some axiomatic extensions of the monoidal t-norm based logic MTL: an analysis in the propositional and in the first-order case

Research activity in mathematical logic, in particular many-valued logics: see the following of the curriculum for a description of my research area

Dipartimento di Matematica "Federigo Enriques", Università degli Studi di Milano

Additional academic titles

Dates

Title of qualification awarded

28 March 2017 - 28 March 2026

Abilitazione Scientifica nazionale, seconda fascia, settore 01/A1 (MAT/01)

Prizes

I was one of the winners of "Concorso AILA 3+2 2007" (second place) for the best master's thesis in mathematical logic. This prize was called by "Associazione Italiana di Logica e sue Applicazioni".

^(*) Common European Framework of Reference (CEF) level

During my academic career I have been part of the organizing committee of three scientific conferences (ManyVal 2008, ManyVal 2010 and Magica 16): see the last part of the curriculum for details.

My research area is about mathematical logic, in particular the hierarchy of many-valued logics introduced by Petr Hájek in (P. Hájek, *Metamathematics of Fuzzy Logic*, Kluwer, 1998). These logics are generalizations of classical (boolean) logic, in the sense that they possess (finitely or infinitely many) intermediate truth-values between the absolute true (1) and the absolute false (0), and are studied in the propositional and in the first order case. These logics are more expressive than the classical counterpart and can be used to cope with the vagueness of the information. Some examples of concepts that can be handled by these logics (in particular in the first-order case, where the predicates are interpreted as fuzzy sets) are sentences like "the temperature is high", "the pressure is low": more in general, the situations where there are properties that are vague (in the sense that there are some "borderline" elements for which it is not clear if they have this property or not), as the ones previously cited. In these cases the framework of classical logic, with only two truth-values, becomes quite rigid: the logics of Hájek's frameworks, instead, are much more flexible and allow to grasp this vagueness, using intermediate truth-values.

Projects

- I have been a member of the national Italian project PRIN 2008 "Logica e algebra dell'informazione incerta".
- I have been a member of the national Italian project FIRB 2010 "Probability theory of non-classical events". In particular, my first post-doc position - from March 2012 to February 2013 - have been funded with this project.
- I have been a member of the national Italian project PRIN 2010 "Metodi logici per il trattamento dell'informazione".

- “Third International Workshop on Rough Set Theory (RST2011)”, Milano, 14-16 September 2011.
<http://www.rstworkshop.tk/>
- “Coherence and Truth - In memoriam Franco Montagna”, Certosa di Pontignano, 16-18 December 2015.
- “First algebra week”, Siena, 19-22 June 2018.
- “Second algebra week”, Siena, 25-28 June 2019. <https://algebraweeksiena.wordpress.com/>

Summer Schools and scholarships

- 3-9 September 2006 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA), with a curriculum-based scholarship, offered by the same school.
- 26 August - 1 September 2007 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA), with a scholarship, offered by the same school. I obtained the scholarship since I was one of the winners of “Concorso AILA 3+2 2007” (second place) for the best master’s thesis in mathematical logic.
- 31 August - 6 September 2008 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA), with a curriculum-based scholarship, offered by the same school.
- 23-29 August 2009 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA).
- 29 August - 4 September 2010 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA).
- 21-27 August 2011 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA), with a curriculum-based scholarship, offered by the same school.
- 19-25 August 2012 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA).
- 25-31 August 2013 - I have attended the summer school “Scuola Estiva di Logica” organized by “Associazione Italiana di Logica e sue Applicazioni” (AILA).

Seminars

- “Logiche polivalenti al primo ordine” (First order many-valued logics) - Dipartimento di Scienze dell’Informazione, Milano, 15 January 2008.
- “Introduzione alle logiche polivalenti” (Introduction to many-valued logics) - Dipartimento di Matematica “Federigo Enriques”, Milano, 28 January 2009.
- On some axiomatic extensions of the monoidal t-norm based logic MTL: an analysis in the propositional and in the first-order case - preliminary discussion of the PhD thesis - Dipartimento di Matematica “Federigo Enriques”, 9 November 2010.
- Supersound many-valued logics and Dedekind-MacNeille completions - Dipartimento di Scienze dell’Informazione, Milano, 9 December 2010.
- On some axiomatic extensions of the monoidal t-norm based logic MTL: an analysis in the propositional and in the first-order case - final discussion of the PhD thesis - Dipartimento di Matematica “Federigo Enriques”, 17 December 2010.
- “On some logical and algebraic properties of axiomatic extensions of the monoidal t-norm based logic MTL related with single chain completeness” - Dipartimento di Scienze dell’Informazione, Milano, 1 June 2011.

Memberships and other informations

- From 2008 I am a member of “Association for Symbolic Logic”, <http://www.aslonline.org>.
- From 2009 I am a member of “Mathematical Fuzzy Logic working group”, http://www.mathfuzzlog.org/index.php/Main_Page.
- From 2012 I am a member of “Associazione Italiana di Logica e sue Applicazioni (AILA)”, <http://www.ailalogica.it/>.
- From 2016 I am a member of “European Society for Fuzzy Logic and Technology (EUSFLAT)” <http://www.eusflat.org/>.
- From 2015 I am a member of the research unit GNSAGA (Gruppo Nazionale per le Strutture Algebriche, Geometriche e le loro Applicazioni), Logica matematica e applicazioni, by INDAM (Istituto Nazionale di Alta Matematica).
- I have been a reviewer for several scientific journals, and also for some international conferences.

Moreover, I am also a reviewer for Mathscinet (Mathematical Reviews) and Zb-Math (Zentralblatt Math).

Il sottoscritto, a conoscenza di quanto prescritto dall'art. 76 del D.P.R. 28 dicembre 2000 n. 445, sulla responsabilità penale cui può andare incontro in caso di falsità in atti e di dichiarazioni mendaci, nonché di quanto prescritto dall'art. 75 del D.P.R. 28 dicembre 2000 n. 445, sulla decadenza dai benefici eventualmente conseguenti al provvedimento emanato sulla base di dichiarazioni non veritiere, ai sensi e per gli effetti del citato D.P.R. n. 445/2000 e sotto la propria personale responsabilità dichiara che tutte le informazioni contenute nel proprio curriculum vitae sono veritiere.
