NOTA: Si precisa che, come previsto dal Regolamento Excellence, una quota di borse di studio è stata riservata agli studenti che supereranno i test di ammissione ai corsi di laurea magistrale ad accesso programmato e al corso di laurea magistrale a ciclo unico in International Medical School, pertanto questa quota di borse sarà assegnata solo successivamente.

PLEASE NOTE: It should be noted that, as provided for the Excellence Regulations, a number of grants has been reserved for students who will pass the admission tests for the master degree programmes with limited access and for the single-cycle master degree programme International Medical School, therefore the missing number of scholarships will be awarded to these courses in a successive moment.
