NOTA BIOGRAFICA

Giovanni Cavagna nasce a Milano il 30 maggio del 1934.

Si laurea in Medicina e Chirurgia all'Università degli Studi di Milano nel 1959.

Fin da studente frequenta l'Istituto di Fisiologia Umana diretto dal Professor Rodolfo Margaria.

Consegue la Libera Docenza in Fisiologia Umana nel 1965 e in Biofisica nel 1969.

Assistente Ordinario nel 1961, Professore Aggregato nel 1971 e Professore Ordinario nel 1973.

Linee di ricerca: fisiologia del muscolo, locomozione, respirazione e fonazione.

Fin dai primi anni della sua vita accademica passa frequenti periodi di ricerca all'estero, collaborando con:

- il Department of Physiology - Pennsylvania University (1965-66)
- il Marine Biological Laboratory - Woods Hole (1972 e 1973)
- il Museum of Comparative Zoology - Harvard University (1973 e 1976)
- la Division of Applied Sciences - Harvard University (1986)
- il Laboratoire de physiologie et biomecanique de la locomotion - Université Catholique de Louvain (1991, 1993 e 1994).

Laurea *honoris causa* in Medicina dall'Université Catholique de Louvain, Belgio (1994).

Premio Antonio Feltrinelli dell'Accademia Nazionale dei Lincei per la Medicina (1999).
